

evCHARGER LCS-15

Level II Charging for low amperage installs

LCS-15

Small, reliable, easy to use. The LCS-15 from Sun Country Highway is the ideal solution for low amperage installs - if you have 15 Amps in your panel you can charge at level 2. The LCS-15 is built and tested to automaker standards to ensure a reliable charge every time.

- Easy to install – have your electrician install indoors or out!
- Reclosure—if your car can be charged, it will be charged—guaranteed
- Lights—indicates charging status
- Cord hanger – low profile stores cord and connector out of the way
- Hardwired – Safe, no dangerous plugs for prying little fingers

CONVENIENT CHARGING WITH THE SCH25

- Indoor/outdoor rated fully sealed (NEMA 4) enclosure
- Reclosure: Smart software that automatically self-checks the system and resumes charging after minor stoppage—systems without reclosure will discontinue charging and leave you with an empty battery.
- Charge Circuit Interruption Device: Ground Fault protection with fully automatic self-check feature that eliminates the need for monthly testing by user.
- Service Ground Monitor: Constantly checks for presence of proper safety ground.
- Tested to automotive standards for durability and reliability.
- Indicators to tell you when the unit has power and when it is charging.
- No buttons, always ready to charge.
- Low profile: Smallest level 2 unit in the industry.
- ETL, cETL and/or cUL listed

PRODUCT SPECS

Service Entrance: 208V to 240V - 12A to 50A, single phase, 2 wire w/ground
Charge Current Output: 208V to 240V - 16A to 24A continuous (3.8kW to 5.8kW)
25 foot cable (7.62 m)
11"Lx4"Wx3"D(279mmLx102mmWx76mmD)
Weight 5.2 lbs
Operating Temperatures: -22°F to 122°F (-30°C to 50°C)
