

# evCHARGER SCH25P

## The world's smallest High Power charging station

SCH-25

**Small, Reliable, Built to Automotive Standards.** The SCH25P from Sun Country Highway The ideal Level II 208/240V solution for home charging. It offers same quality and dependability of our SCH25 charger, that now includes a NEMA 14-30 Plug for better portability. Since the last thing you need is one more item in your garage, we have packed close to 5kW of power in this small package.

- Easy to install – have your electrician install a 240V outlet, indoors or out!
- Reclosure—if your car can be charged, it will be charged—guaranteed
- Cord hanger – low profile stores cord and connector out of the way
- Lights—indicates charging status

**CONVENIENT CHARGING WITH THE SCH25P**

- Listed Outdoor Rated (NEMA 4) enclosure.
- Reclosure: Smart software that automatically self-checks the system and resumes charging after minor stoppage—systems without reclosure will discontinue charging and leave you with an empty battery.
- Charge Circuit Interruption Device: Ground Fault protection with fully automatic self-check feature that eliminates the need for monthly testing by user.
- Service Ground Monitor: Constantly checks for presence of proper safety ground.
- Tested to automotive standards for durability and reliability.
- Indicators to tell you when the unit has power and when it is charging.
- No buttons, always ready to charge.
- Low profile: Smallest level 2 unit in the industry.
- cUL, UL and CSA approved
